Ferdin NDOLO

Front End Developer with a keen eye for detail

Profile

From the moment I ran a JavaScript code in the console, I knew I was hooked into the world of web developement. But web developement has never been "just a job" for me, it's offered an engaging challenge to continually learn and improve my skills in creating high-quality website. Very passionate about coding and finding new ways of improving.

Experience

Food App Search

Built in React, I used an external API to create this web app and using some new ES6 features like the map array function and the Asynchronous JavaScript, I wanted to know more about API implementation.

Education

Training of Microsoft Office 2013 at The Young Teacher' School

march 2017 - september 2017
Graduated with the highest grade.

Details
